

ideas & INSPIRATIONS

Canyon Ridge® Collection

A guide to choosing a garage door as beautiful as your home.

Imagine

what a new Clopay door
could do for your home.

Galaxy® Collection Short Panel in Ultra-Grain® Dark Oak

THE CLOPAY DIFFERENCE

BEAUTIFUL

Deep Embossed Panels

Natural woodgrain texture and detailed raised panel design enhance door's beauty.

Coped Edges

Coachman® Collection doors are designed with stylish beveled coped edges and decorative center grooves.

Handcrafted Wood

Handcrafted from premium species harvested from sustainable and naturally fallen forestry.

DURABLE AND ENERGY EFFICIENT

Rust-Prevention System

Steel skins are protected through a tough, layered coating system, including a hot-dipped galvanized layer, a protective metal oxide pretreatment, and a baked-on primer and top coat.

Galvanized Springs

Corrosion-resistant, long-lasting galvanized torsion springs have a 50% longer cycle life than the industry standard.

Insulation Options

Polyurethane and polystyrene insulation improves energy efficiency. Many doors qualify for the energy tax credit. See your Clopay Dealer for details.

RELIABLE AND SAFE

Spring Containment System

Extension springs are equipped with a safety containment system to prevent damage if spring breaks.

Patented Safe-T-Bracket®

Prevents serious injury that could occur if the bottom bracket were removed with the garage door closed and under tension.

EZ-SET® Torsion Springs

Patented springs for easier, faster and safer installation. Eliminates the labor intensive and dangerous manual winding process.

making the right CHOICE

3 EASY STEPS

1

CHOOSE A STYLE

Since a sizable portion of what people see of your home from the street is your garage door, the style you choose should complement the rest of your home's exterior.

Clopay offers a wide selection of designs from traditional raised panel options to timeless carriage house styles and unique contemporary looks.

Even if you're replacing an existing door, remember there are many new options and materials available today to match the architectural style of your home.

Use our web-based Door Imagination System at www.clopay.com to upload a photo of your home to see how various designs transform its appearance.

2

PICK A MATERIAL

Clopay garage doors come in a variety of materials, sizes and colors with a wide selection of insulation, window and hardware options to choose from. First, decide if you prefer the beauty of natural wood or the energy efficiency, durability and low maintenance of steel and aluminum.

You can narrow your choices by comparing your answers to the following questions with the product overview chart on the next page.

- Are you looking for a door with a traditional raised panel, a carriage house style design or a contemporary look?
- Is your garage attached to your home, adjacent to your family room or below a bedroom where noise or temperature control is important?
- Do you want a door that is easy to maintain?
- Do you want a door made from natural wood or one made of steel or aluminum?

3

CONTACT A CLOPAY DEALER

Once you have decided on the style of door and options you prefer, it's time to contact a Clopay door dealer to measure, order and install your door. Ask your Clopay Dealer for WINDCODE® options and availability.

PRODUCT OVERVIEW ■ TABLE OF CONTENTS

PORTFOLIO® LINE

The Portfolio Line offers truly unique designs to enhance your home's curb appeal.

CLASSIC™ LINE of STEEL

The Classic Line offers traditional raised panel and flush doors to complement most home styles.

MODERN design meets Asian INSPIRATION

STYLE AND CONSTRUCTION

Aluminum and glass combine to create a sleek, contemporary look. Many window options are available to control the degree of light transmission and privacy.

- 1 2-1/8" aluminum frame provides a virtually maintenance-free, long-lasting door.
- 2 Tempered glass, acrylic or solid aluminum panel options. Insulated glass is also available for increased energy efficiency.
- 3 Tongue-and-groove joint plus vinyl bottom weatherseal with retainer help protect against the elements.
- 4 Integral reinforcing fin provides increased strength and longevity.

Heavy-duty steel ball bearing rollers with nylon tires provide quiet operation.

See your Clopay Dealer for WindCoc® availability.

STANDARD FRAME COLORS

AVANTE™

collection

The Avante is the perfect choice to modernize any home; transforming not only garages, it can also be used as an indoor loft partition or a versatile patio door to seamlessly merge indoor and outdoor living spaces.

Avante™ Collection, White Painted Aluminum with Frosted Tempered Glass
